**The Creators of Guide Ti  
COGEP CELEBRATES ITS 20<sup>th</sup> ANNIVERSARY!**

Quebec City, August 10, 2009 – 2009 is an extraordinary year for Cogep. The Canadian-based company is proud to be celebrating their 20 years of success and continual growth, primarily attributed to their world class maintenance management software Guide Ti. This innovative management tool is implemented in a variety of businesses for a variety of purposes such as; tracking maintenance, inventory and purchases. Guide Ti software is currently used in a wide range of business and industry sectors, such as: mines, energy, transportation, education, health care, financial services, real estate, agri-food, and manufacturing. Cogep is 100% Canadian owned company that develops and delivers superior maintenance management solutions for public and private companies. Cogep's clients are able to maximize maintenance and equipment control, while reducing their maintenance and operating costs. Guide Ti is an invaluable maintenance management software for managing company resources.

Michel Fournier, President of Cogep, has a unique way of looking at 2009 due to the current economic turmoil and Cogep's 20th anniversary: "For us, 2009 delivers endless opportunities, companies in today's global crisis are looking for a new efficient economical approach to manage and maximise their resources. Cogep continues to grow and is able to proudly celebrate its 20 years of success during this time because we deliver the best tools for businesses to reduce costs, and keep strategic assets in peak condition. In the challenging economic conditions we're experiencing today, Cogep offers solution to ensure our clients maximise their efficiency and investment to reach their full potential."

For 20 years Cogep has been providing market and industry leaders such as ABB, Agropur, Bombardier, the Casino de Montréal, IAM Gold, Aurizon Mines, the Ministry of Transport, Quebecor and Saputo simple and effective maintenance management solutions. Another tribute to Cogep's success the prestigious "Canadian Microsoft Impact Award" they won in 2006. The award was in recognition of Cogep's quality of work in

integrating its software with ERP solutions from Microsoft, while managing a team of several Canadian partners regarding the implementation of a solution to a major customer of the mining industry in Western Canada.

2009 is an extraordinary year for Cogep celebrating their 20 years of success and their bold entrepreneurial spirit, ingenious marketing strategies, a future-oriented vision that continue to drive opportunities. Cogep is one of Canada's most distinctive companies as their ability to adapt and deliver innovative solutions to new markets is infinite!
